(54) Title: ADDING METADATA TO PICTURES

(57) Abstract: The invention relates to a method for adding in a device 1, which comprises a camera component 2, metadata to pictures. In order to extend the collection of metadata for such pictures, the method comprises in a first step taking a picture of an object by means of the camera component 2. In a next step, signals comprising information on the object are received via a wireless connection from a communication unit 6 which is associated to the object. In a last step, the received information is stored as metadata together with the data of the picture in a memory 5. The invention relates equally to an electronic device 1 comprising means for realizing the proposed method and to a system comprising such a device 1 and moreover a communication unit 6 transmitting information on a device to which it is associated.

INTERNATIONAL SEARCH REPORT

International Application No.

PCT/IB 03/06151

A. CLASSIFICATION OF SUBJECT MATTER
IPC 7 H04N9/82

According to International Patent Classification (IPC) or to both national classification and IPC

B. FIELDS SEARCHED

Minimum documentation searched (classification system followed by classification symbols)

IPC 7 H04N

Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched

Electronic data base consulted during the international search (name of data base and, where practical, search terms used)

☐ Further documents are listed in the continuation of box C.☒ Patent family members are listed in annex.

* Special categories of cited documents:

- *A* document defining the general state of the art which is not considered to be of particular relevance
- *E* earlier document but published on or after the international filing date
- *L* document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)
- *O* document referring to an oral disclosure, use, exhibition or other means
- *P* document published prior to the international filing date but later than the priority date claimed

- *T* later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention
- *X* document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone
- *Y* document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art.
- *G* document member of the same patent family
